Washington, Ind., Oct. 2.—This city
was in a great state of excitement Sunday night. One hundred and fifty
coal minors from Pans, Ill., came here
stundsy affection and most with the
home union minors and organized. At
10 clocked Sanday night they got together and, masked, visited all the
enacks where the colored coal minors
were coralled and at the points of revolvers were driven out of town.

One Negro refused to go and the
miners fired on him. He has not been
found and may be killed.

The rollee could do nothing.
One brave policeman, Anderson Cannon, went up to the whole mob and
demanded of them to disperse. They
answered by leveling their pistols at
him.

The masked miners took the town.

The masked miners took the town. Chief of Tolice Call turned in the fire nlarm and called out the citizens to assist in keeping peace.

Several are deputized, and if there is new outbreak of trouble much blood-shed is likely to result. At 1300 s. m the streets were covered with people. The masked men have hidden themselves, possibly to make an attack on other. Negro shacks. There are possibly fifty Negroes who declare they will die before they leave town. Everything was quiet within the city at 1300 Monday morning. Small groups of strangers are seen in different parts of the town, and the police masked miners are believed to have gone to the mines two miles southeast of the city, where more of the Negroes are Hving, with the heat of the city, where more of the Negroes are Hving, with the tast of the white box. Shots have been heard in that direction for the staff inch, and there may be a battle. The Negroes are armed at the mines and are well protected. It is impossible at this hour to get any new directed from the mines.
